OVERVIEW

Klar is a Mexican financial technology company offering a 100% digital, transparent, and free alternative to traditional credit cards and debit accounts.

MISSION & PURPOSE

To democratize access to financial services in Mexico by offering fair, accessible credit and banking products.

NOTABLE IMPACT

"Klar tackles Mexico's massive credit gap. With over 80% of Mexicans lacking access to traditional credit cards, Klar uses alternative data to approve credit lines rapidly, deeply disrupting legacy Mexican retail banks."

FOUNDER PROFILE

Stefan Möller, Gianluigi Davassi, and Daniel Autrique. Möller noted that the Mexican banking sector was highly profitable for banks but terrible for consumers, creating a massive opening for a consumer-first digital challenger.
