~$50M+ (Est.)

ACTIVE USERS
250K+ Merchants

OVERVIEW

Paymob is a leading omnichannel payment infrastructure enabler in the MENAP region, building APIs for online and offline payment acceptance.

MISSION & PURPOSE

To power the financial engine of SMEs in the Middle East and North Africa by providing comprehensive payment acceptance methods.

NOTABLE IMPACT

"Paymob powers over 85% of Egypt's mobile wallet transactions. They are instrumental in digitizing the massive, previously cash-only SME sector in Egypt and Pakistan."

FOUNDER PROFILE

Islam Shawky, Alain El Hajj, and Mostafa Menessy. They founded the company while still university students in Cairo, building the infrastructure from the ground up when global players ignored the Egyptian market.
