OVERVIEW

UPI is an instant real-time payment system developed by the National Payments Corporation of India, facilitating inter-bank peer-to-peer and person-to-merchant transactions seamlessly.

MISSION & PURPOSE

To accelerate India's transition to a less-cash economy by providing a universally accessible, interoperable digital payment layer.

NOTABLE IMPACT

"India's UPI clocks over 10 billion transactions in a single month. UPI has become a global benchmark for digital public infrastructure, drastically lowering the cost of digital transactions across the subcontinent."

FOUNDER PROFILE

Developed by the National Payments Corporation of India (NPCI) under the guidance of the Reserve Bank of India. Dilip Asbe, the current MD & CEO, played a pivotal role in its architectural design.
